Guidelines for CN Project Lab (JAN-MAY 2026)

1. CN Project is for **30 Marks (As part of Internal Assessment)**.

2. CN Project can be implemented using **Software or Hardware**.

3. If it is a software project, Student is free to select the **Tool and Language**.
   Ex., of Tools: QUALNET, MATLAB, NS2, NS3, Code Blocks etc.,
   Ex., of Language. C, C++, TCL, Java, etc.

4. Student is allowed to implement his/her own ideas in the domain of Communication Networks or he/she can select a project idea from any of the **Scopus indexed** Journal papers (IEEE Journals, Elsevier, Springer etc.). Conference papers are NOT allowed.

5. There can be **maximum of TWO** students per group and the group members should be from the same Lab batch. (Individual Student may also be allowed to conduct a Project). However, the quality and quantity of work expected from a team is proportion with the number of students in a team.

6. Synopsis submission must be in **IEEE format** (Min. 2pages and Max. of 4pages) and it consists of objective, Block Diagram/Flow Chart/Algorithm, Operation, Tools/Language/Hardware for conduction, expected results and References.

7. Synopsis can be accepted based on the objective, feasibility and worth of doing for 3 months.

8. Students should submit their synopsis **softcopy through Turnitin.** During the LAB slot, the faculty will verify for duplications/similarities, format, and details of the synopsis. **NOTE: Similarity report and AI report should be less than 15%.**

9. The Acceptance/Rejection status of synopsis will be informed by faculty during the Lab slot.

10. Upon acceptance, the synopsis (**Hard copy**) must be submitted to the faculty during the Lab. The decision of faculty who are handling respective slot is final.

11. Faculty can give their comments of acceptance/rejection on the hard copy of synopsis.

12. Project approval is First Come First Serve basis.

13. All the accepted synopses (batch wise) has to be submitted in IEEE format (as attached along with these guidelines) to faculty (**hard copy**) during Synopsis presentation.

14. Students will submit the final report (Softcopy) through **Turnitin** before the Project Demonstration & Presentation (Final).

15. There will be an assessment during Project Demonstration & Presentation (Final) → 30 Marks.

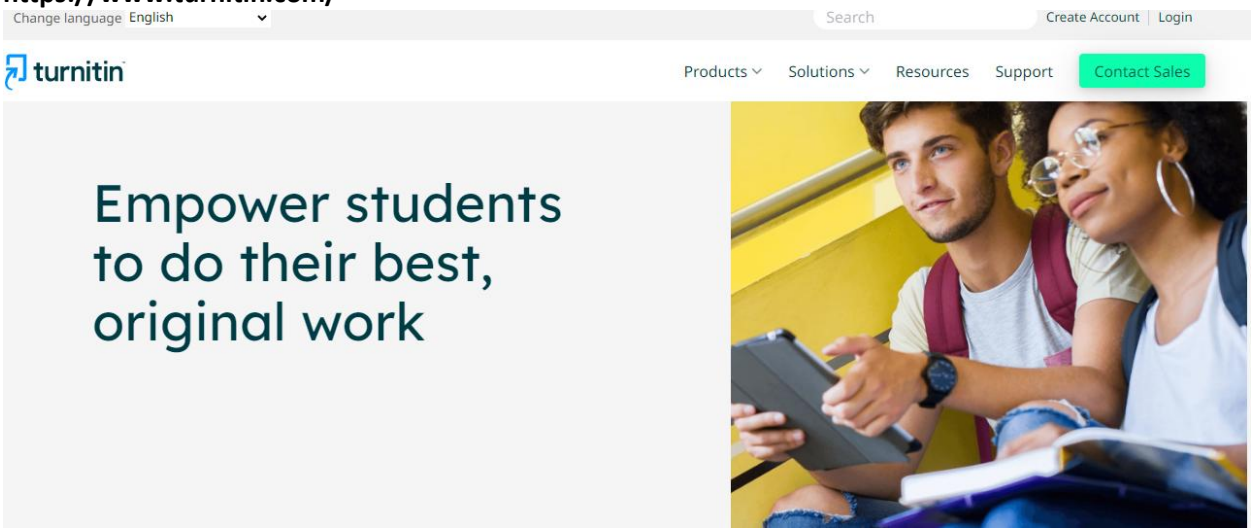
Important Dates:

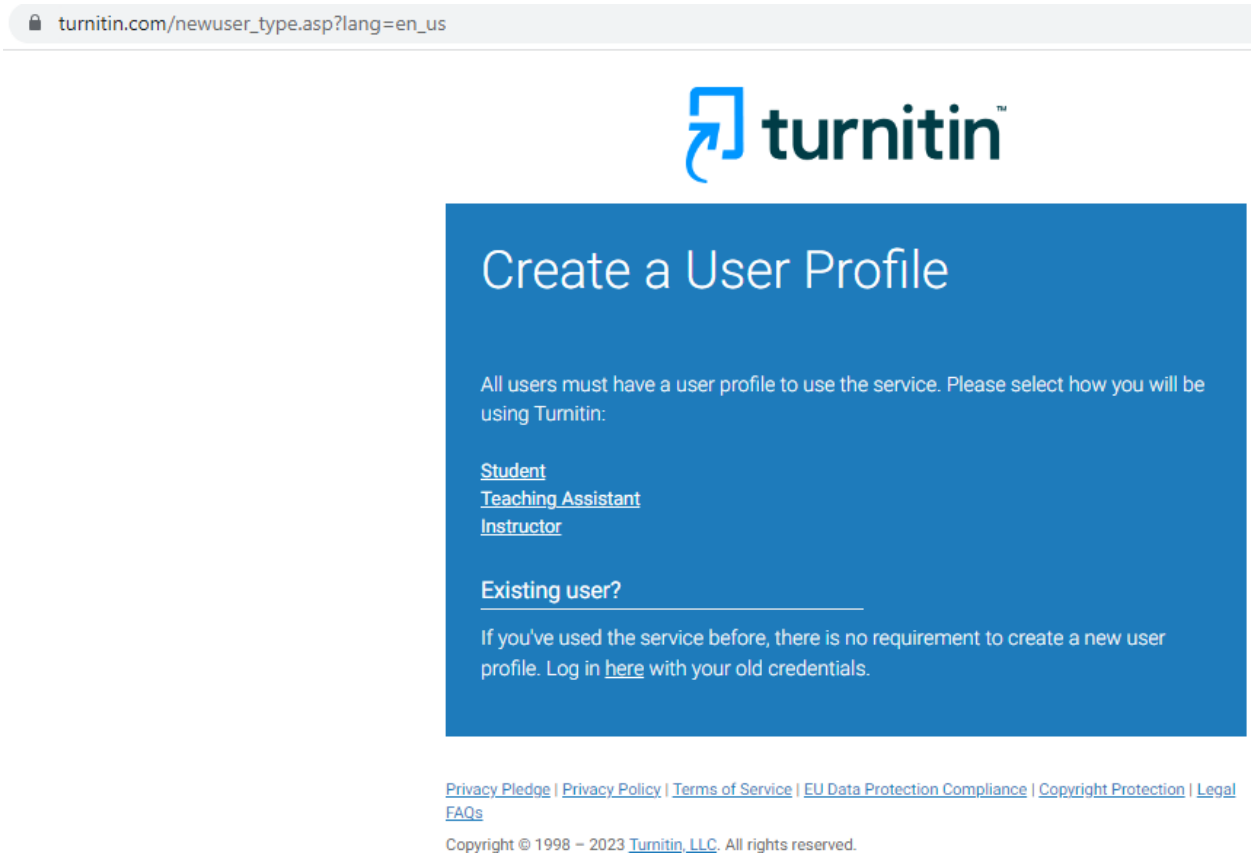
1. Last Date for Project approval by the respective Lab faculty is 9th Feb 2026 for all the Batches. (Last date includes time to verify the project for duplications and approvals).
2. Project Demonstration and report submission (Final) → 6th – 11th April 2026.

NOTE: All the evaluations are conducted by the faculty in the regular CN Lab slots only.

<u>Steps to submit the Project Synopsis/reports through Turnitin:</u>

1. Create an account and user profile as “Student”.
   https://www.turnitin.com/





2. Class ID Information:

   Class ID: **51594617 or 51594659**
   Enrollment Key: **CNLAB2026**

User Information: **You can fill your Name**
Email ID: Your learner ID. **XXXX@learner.manipal.edu**
Password: You can set your own password
Secret Question: You can set your own question
Answer: As applicable
Check the box and click on "**I agree**".

3. After creation of user profile, you can click on class name "**CN LAB 2026**".
4. Click on "**Submit**" for project synopsis submission.
